

Piece of My MindJ. LeDoux

I was gonna give you a piece of my mind
But I wouldn't have enough for me
You wore out my brain so it's hard to find
A piece of my mind that's free

You left so little of my mind behind
I can hardly remember me
I mostly have to pantomime
The one I used to be

My brain's a tangled mess
Ever since you got in it
You took the very best
Just as you intended

Why are you like that
I wish that I knew
What goes on inside your brain
Makes you make me blue

You say you want to change
You want to settle down
That I'm the one you want
To be with in a gown

There you go again,
Putting me down to your friends
Don't you realize
Words are means not ends

No matter what you say
You will still be you
If you wanna change who you are
You gotta change what you do

I was gonna give you a piece of my mind
But I wouldn't have enough for me
You wore out my brain so it's hard to find
A piece of my mind that's free

You left so little of my mind behind
I can hardly remember me
I mostly have to pantomime
The one I used to be

The one I used to be
The one I used to be
The one I used to be
The one I used to be
