

Theory of My Mind - J. LeDoux

Do you have a theory of my mind
If you do then why are you so blind

To the things that I need
To the things that I want
To the reasons that I bleed
Every time you taunt me

Am I the one that you believe in
If so why are you always leaving

Can you see the things that I'm feeling
If you do you're very good at concealing

You always criticize
You never ever empathize

You should try to be me
Maybe then you'd finally see me

Do you have a theory of my mind
If you do then why are you so blind

To the things that I need
To the things that I want
To the reasons that I bleed
Every time you taunt me
